

We own and manage CHA Power Ltd.

CHA Power Ltd was set up in 2005 following consultation with tenants, to provide energy efficient and affordable heat and hot water to our residents in Radnor Park.

It now supplies over 350 two bedroom multi storey flats through a Combined Heat and Power system (CHP) for just £11.38 (incl. 5 % VAT) a week (as at 1 April 15).

In 2012, tenants with CHP were paying approximately 13.5 % less in overall heat, hot water and electricity costs than they would have been paying if they still had electric storage heating (and that is for unlimited heat and hot water).

CHP systems reduce energy bills, combat greenhouse gases and provide a significant carbon reduction. The local church is also connected and cut carbon emissions by 85 %.

Electricity is produced and excess electricity is sold to the National grid and proceeds offset against charges, to help keep prices low. Some excess electricity was used to power our electric car hire scheme (2008-2013) for residents.

We have links with the local school eco council which has visited the plant.

Please do not hesitate to contact our Communications Officer if you'd like any more information.
